Africa

Chi P'eng-fei (姬鹏飞), Foreign Minister:

The Chinese government and people are convinced that, so long as the African people persevere in unity and struggle, they will certainly win new and still greater victories.

("Ethiopian Ambassador and Wife Give Reception Celebrating Anniversary of Triumphal Return of Emperor Haile Selassie I to Addis Ababa," NCNA-English, Peking, May 4, 1972--SCMP 72-20 [5133]/39)

*

Wang Shu-sheng (王树声), Vice Minister of National Defense:

Imperialist aggression and oppression can only compel the people of various African people to rise up in struggles even more resolutely. The Chinese people and People's Liberation Army resolutely condemn all the conspiracies of imperialism, colonialism and neo-colonialism, and firmly support the just struggle of the people of various African countries.

("Peking Banquet Warmly Welcomes Tanzanian Military Delegation," NCNA-English, Peking, May 5, 1972--SCMP 72-20 [5135]/141)

*

Jen-min Jih-pao Editorial:

The African people are our good friends. The Chinese and African peoples shared the same sufferings in history and are faced with the common tasks in struggle now. We are comrades-in-arms trusting and relying upon each other in the fight against imperialism, colonialism and neo-colonialism, and racialism and against the power politics and hegemonic practices of the superpowers.... We reiterate once again that in the great cause of fighting in unity against imperialism, we will stand forever by the side of the African people, supporting each other and marching forward shoulder to shoulder.

("Africa Is Advancing with Broad Strides in Fighting in Unity," NCNA-English, Peking, May 25, 1972--SCMP 72-23 [5148]/66-67)

*

Wang Kuo-ch'uan (王国权), leading member of Chinese People's Association for Friendship with Foreign Countries:

The Chinese and African peoples have always sympathized with and supported each other in the common protracted struggle against imperialism and colonialism and forged a profound militant friendship. The Chinese people have enjoyed the valuable support of the African people in their cause of socialist revolution and socialist construction. The African people

may rest assured that the Chinese people will forever remain their reliable friends in their just struggle against foreign aggression and for the liberation of the entire African continent.

("Peking Reception Marks African Liberation Day," NCNA-English, Peking, May 25, 1972--SCMP 72-23 [5148]/69)

*

Jen-min Jih-pao Commentator:

The African people's struggle is an enormous support to the Chinese people. We firmly support the peoples of Mozambique, Angola, Guinea (Bissau) and other regions in their struggle for national liberation. We firmly support the peoples of Azania, Zimbabwe and Namibia in their struggle against White colonialist domination and racial discrimination. We firmly support the African peoples in their just struggle against imperialism, colonialism and neo-colonialism and for safeguarding national independence. We shall always remain with the African people and fight together for the Asian, African and Latin American peoples' cause of unity against imperialism.

Arab States and Peoples

Li Hsien-nien (李先念), Vice Premier:

The Chinese government and people resolutely support the just struggle of the Syrian, Palestinian and other Arab peoples. We will always stand together with you in the struggle against imperialist aggression, subversion, control, interference and bullying.

("Vice Premier Li Hsien-nien Gives Banquet in Honor of Syrian Government Delegation," NCNA-English, Peking, May 21, 1972--SCMP 72-22 [5145]/142)

Jen-min Jih-pao Editorial:

Although the struggle of the Palestinian and other Arab peoples is protracted and arduous and all kinds of difficulties may crop up on their road ahead, we believe that, so long as they persist in relying on their own strength and adhere to the policy of giving first place to maintaining independence, keeping the initiative in their own hands and relying on their own efforts, and second place to foreign aid, the Arab peoples can certainly foil successively all plots of aggression, subversion, control and intervention against the Arab and Palestinian people hatched by outside forces. They can certainly increase their strength steadily, seize the initiative in struggle and thus win still greater victories in their struggle against aggression.

Unity is an important weapon with which the Arab and Palestinian people vanquish the enemy. We are glad to see that the unity among the Palestinian guerrillas, between the Palestinian people and the people of various Arab countries and between the Arab people and the people in other part of the world who support their just struggle, has been constantly consolidated and strengthened in the struggle against imperialism. The entire Asian, African and Latin American people and all justice-upholding countries and peoples stand firm on the side of the Arab and Palestinian people.

The Chinese people resolutely support the Palestinian, Egyptian, Syrian and other Arab people in their just struggle to restore their national rights and recover their lost land, and scathingly condemn all criminal activities carried out by imperialism and its lackeys against the Arab and Palestinian people.

Ceylon (Sri Lanka)*

Jen min Jih-pao Editorial:

The last few years have witnessed a new development in the friendly cooperation between China and Sri Lanka and in the traditional friendship between the two peoples. The current visit of Mrs. Sirimavo Bandaranaike to China brings the deep friendship of the Sri Lanka people to the Chinese people. We are deeply convinced that the visit will make a new contribution to the further consolidation and development of the relations of friendship and cooperation between our two countries.

Chou En-lai, Premier:

...Her Excellency the Prime Minister's proposal to declare the Indian Ocean a zone of peace reflects the urgent desire of Afro-Asian countries to safeguard national independence and state sovereignty and oppose the superpowers' aggression and expansion. The Chinese government and people firmly support this just proposal, and hold that the resolution on the "declaration of the Indian Ocean as a zone of peace" adopted by the United Nations General Assembly at its 26th Session on December 16, 1971 should be respected....

We are confident that Her Excellency's present visit to China will surely further increase the friendship between our two peoples and the friendly relations and cooperation between our two countries.

Greece

China-Greece Joint Communique:

In accordance with the principles of mutual respect for sovereignty and territorial integrity, non-interference in each other's internal affairs and equality and mutual benefit, the Government of the People's Republic of China and the Royal Government of Greece have decided to recognize each other and establish diplomatic relations as from June 5, 1972, and to exchange ambassadors within six months.

The Greek Government recognizes the Government of the People's Republic of China as the sole legal government of China.

The Chinese government reaffirms that Taiwan is an inalienable part of the territory of the People's Republic of China. The Greek government takes note of this position of the Chinese government.

The Chinese and Greek governments have decided through consultations to provide each other with all necessary assistance for the establishment and the performance of the functions of the embassies in their respective capitals on the basis of equality and mutual benefit and in accordance with international practice.

The struggle of the three Indochinese peoples against US aggression and for national salvation is a just one, and a just cause is bound to triumph. The solemn and just stand of the Chinese government and people of supporting the three Indochinese peoples is firm and unshakable. So long as the US government does not stop its war of aggression against Indochina, and no matter what forms the war may assume, we will resolutely support the Indochinese people in their war of resistance to the end till their final victory.

Tung Pi-wu, Acting Chairman of PRC, Chou En-lai, Premier:

The present situation of the three Indochinese peoples' war against US aggression and for national salvation is excellent. Although US imperialism and its lackeys are still putting up frantic and desperate struggles, they can in no way alter the trend leading to their inevitable doom. We believe that the three Indochinese people, uniting as one and persevering in struggle, will surely be able to smash all military and political schemes of US imperialism and its lackeys and realize their own national aspiration.

...It is the bounden internationalist duty of the Chinese people to support and assist the Vietnamese people and all the Indochinese peoples in their war against US aggression and for national salvation. So long as US imperialism does not stop its war of aggression against Vietnam and the whole Indochina, and no matter what forms the war may assume, the Chinese people will, as always resolutely support and assist the Vietnamese people and all the Indochinese peoples in carrying their war of resistance to the end, until complete victory is won.

Israel (Palestine)

Chou Hua-min (周化民), Head of PRC Delegation to 3rd UNCTAD:

We strongly condemn Israeli zionism for its aggression against Palestine and other Arab countries. We resolutely support the Palestinian people in their just struggle to return to their homeland and to regain their legitimate right to national survival. We resolutely support Egypt, Syria and other Arab countries and their people in their just struggle to recover their lost territories. This just struggle of theirs and the settlement of the question of the Suez Canal constitute an indivisible whole. The question of the Suez Canal cannot be really solved until Israel withdraws from all the Arab territories under its occupation, the national rights of the Palestinian people are restored and the one or two superpowers stop their aggression and intervention in the Middle East.

Wang Jun-sheng (王润生), PRC Representative to UN:

The Chinese government and people strongly condemn Israeli zionism for its aggression against Palestine and other Arab countries and strongly condemn Israel for its crime of trampling on the fundamental human rights of the Arab people in the occupied territories....

In our opinion, the fundamental way to uphold the legitimate rights of the people in the Israeli-occupied territories is: Israel must withdraw from all the Arab territories it has occupied; the Palestinian people's rights to national existence, including their right to return to their homeland, must be restored; Israel must cease its further expansion and aggression against the Arab countries....

The Chinese government and people always stand on the side of the Palestinian and other Arab peoples who are subjected to aggression, firmly support the just struggles of the Palestinian people to restore their national rights and of the Arab countries to recover their lost territories, and resolutely oppose any political deals at the expense of their right to existence and their territory and sovereignty. This principled stand of ours is firm and unshakable. We are convinced that no matter what twists and turns or reversals may arise on the road of advance of the Palestinian and other Arab peoples, the US-Israeli aggressors are doomed to fail and the Palestinian and other Arab peoples are bound to triumph.

Jen-min Jih-pao Editorial:

Although the struggle of the Palestinian and other Arab peoples is protracted and arduous and all kinds of difficulties may crop up on their road ahead, we believe that, so long as they persist in relying on their own strength and adhere to the policy of giving first place to maintaining independence, keeping the initiative in their own hands and relying on their own efforts, and second place to foreign aid, the Arab peoples can certainly foil successively all plots of aggression, subversion, control and intervention against the Arab and Palestinian people hatched by outside forces. They can certainly increase their strength steadily, seize the initiative in struggle and thus win still greater victories in their struggle against aggression.

Unity is an important weapon with which the Arab and Palestinian people vanquish the enemy. We are glad to see that the unity among the Palestinian guerrillas, between the Palestinian people and the people of various Arab countries and between the Arab people and the people in other part of the world who support their just struggle, has been constantly consolidated and strengthened in the struggle against imperialism. The entire Asian, African and Latin American people and all justice-upholding countries and peoples stand firm on the side of the Arab and Palestinian people.

The Chinese people resolutely support the Palestinian, Egyptian, Syrian and other Arab people in their just struggle to restore their national rights and recover their lost land, and scathingly condemn all criminal activities carried out by imperialism and its lackeys against the Arab and Palestinian people.

Japan

Jen-min Jih-pao Commentator:

...The Chinese people are profoundly indignant at the reactionary Sato government's connivance with and protection of the Right-wingers in their anti-China provocations.

...To develop Sino-Japanese friendship is the general trend of popular feeling. No force on earth can destroy the traditional friendship between the Chinese and Japanese peoples. In conniving with and protecting the right-wingers in their anti-China provocations, Sato and company can only reveal their reactionary features more clearly as enemies of the Chinese people, and will only arouse fiercer opposition from the Japanese people.

The Chinese people are closely following the development of the situation. The Japanese authorities must take fundamental, effective measures to stop the anti-China provocations of the right-wingers, and guarantee against recurrence of similar incidents. Otherwise, they must bear full responsibility for all the consequences arising therefrom.

("Despicable Anti-China Provocations," NCNA-English, Peking, May 5, 1972--SCMP 72-20 [5134]/89-90)

Jen-min Jih-pao Commentator:

It should be pointed out in particular that through the so-called "reversion of Okinawa" the US and Japanese governments openly included into the "reversion zone" the Chinese territory of Tiaoyu and other islands. This is a serious encroachment on China's territory and sovereignty. It is completely illegal and invalid for the US and Japanese governments to deal secretly with China's territory. What is more, the Sato government has decided to include these Chinese islands into Japan's "air defense identification zone" and declared that ships of its maritime security force will be sent to "patrol" these islands. We want to warn the reactionary Japanese government once again that the sovereignty of the People's Republic of China over the Tiaoyu and other islands appertaining to Taiwan brooks no encroachment. The plot of anyone to occupy and annex China's territory will never succeed.

("The Japanese People Must Get Back Okinawa Completely," NCNA-English, Peking, May 18, 1972--SCMP 72-22 [5143]/37-38)

*

Jen-min Jih-pao Commentator:

The "Defense Agency" of the reactionary Sato government of Japan has announced that two warships of the Chiang Kai-shek clique in Taiwan will pay a "visit" to Japan in a few days. This is another big exposure of the

reactionary government's insistence on its anti-China policy and a flagrant provocation against the Chinese people. The Chinese people are deeply indignant at this....

It is the common aspiration of the Chinese and Japanese peoples to develop China-Japan friendship and restore China-Japan diplomatic relations; this is an irresistible trend of our era. That Eisaku Sato should flagrantly step up his collusion with the Chiang Kai-shek clique and remain hostile to the Chinese people is wholly incompatible with the Japanese people's demand that Japan take the road of independence, democracy, peace and neutrality. Such criminal acts of Sato will be tolerated neither by the Chinese people nor by the Japanese people. Sato's deliberate sabotage of improvement in Japan-China relations only serves to reveal more clearly his reactionary features and arouse strong opposition from the Japanese people. This will only bring himself to a more ignominious end.

Jen-min Jih-pao Editorial:

The Chinese government and people resolutely support the Korean people's just struggle for the peaceful unification of the fatherland and the reasonable proposal on the peaceful unification of the fatherland put forth by the Workers' Party of Korea and the DPRK government. We are firmly convinced that the beautiful 3,000-li land of Korea is bound to be unified and the long-divided Korean people will certainly come together again. This is a historical trend that no force can check.

Netherlands

China-Netherlands Joint Communique:

The government of the People's Republic of China and the government of the Kingdom of the Netherlands have agreed to raise the level of their respective diplomatic missions in the two countries from offices of charges d'affaires to embassies as from May 18, 1972.

The Chinese government reaffirms that Taiwan is a province of the People's Republic of China. The government of the Kingdom of the Netherlands respects this stand of the Chinese government and reaffirms that it recognizes the government of the People's Republic of China as the sole legal government of China.

The government of the Kingdom of the Netherlands holds that the principles of peaceful coexistence should imply non-interference in each other's internal affairs not only between countries and groups of countries of different socio-political systems, but equally between countries belonging to an alliance and having identical or similar socio-political system. The government of the People's Republic of China appreciates this stand of the government of the Kingdom of the Netherlands.

Rhodesia

Wang Jun-sheng (王润生), PRC Representative to UN:

The Chinese government people have always deeply sympathized with and resolutely supported the peoples who are subjected to racial discrimination and colonial oppression in their just struggle for national independence and fundamental human rights. The Chinese government has always refrained from having any diplomatic contacts with the South African and Rhodesian white racist regimes, nor does it have any economic or trade relations with them, direct or indirect. The Chinese government has all along strictly adhered to this just stand. After the restoration of China's lawful rights in the United Nations, the Chinese representatives have reaffirmed on many occasions, in the UN General Assembly, the Security Council and other UN bodies, the Chinese government's just stand of resolutely supporting the African peoples in their struggle against racial discrimination and apartheid. The Chinese government firmly maintains that the white racist regimes in South Africa and Rhodesia as well as the Portuguese colonialist rule must be brought to an immediate end, so that the peoples of Azania, Zimbabwe, Namibia, Angola, Mozambique and Guinea (Bissau) may achieve their national independence free from any outside interference....

The struggles waged by the peoples of Azania, Zimbabwe, Namibia and the Portuguese colonies are just and just struggles are bound to triumph. We are convinced that, with the support of the African people and the people of the whole world, they will surely win final victory, so long as they unite as one and persevere in protracted struggles.

Somalia

Jen-min Jih-pao Editorial:

With the deep-going development of the Afro-Asian people's struggle against imperialism and colonialism, the militant unity between the peoples of China and Somalia will surely be further consolidated....

President Mohamed Siad Barre and other distinguished Somali guests in their state visit to our country bring us the profound friendship of the Somali people. We are deeply convinced that through this visit, the friendly relations and cooperation between China and Somalia will surely further develop with the joint efforts of the two sides.

South Africa

Wang Jun-sheng, PRC Representative to UN:

The barbarous systems of racial discrimination and apartheid which exist in Southern Africa and some other regions today are the outcome of the policy of colonialism and imperialism. The existence and continuation of these systems are a serious challenge to the purposes and principles of the UN Charter as well as to the fundamental rights of the people throughout the world. This is absolutely intolerable to all the countries and peoples that uphold justice.

The Chinese government and people have always deeply sympathized with and resolutely supported the peoples who are subjected to racial discrimination and colonial oppression in their just struggle for national independence and fundamental human rights. The Chinese government has always refrained from having any diplomatic contacts with the South African and Rhodesian white racist regimes, nor does it have any economic or trade relations with them, direct or indirect. The Chinese government has all along strictly adhered to this just stand. After the restoration of China's lawful rights in the United Nations, the Chinese representatives have reaffirmed on many occasions, in the UN General Assembly, the Security Council and other UN bodies, the Chinese government's just stand of resolutely supporting the African peoples in their struggle against racial discrimination and apartheid. The Chinese government firmly maintains that the white racist regimes in South Africa and Rhodesia as well as the Portuguese colonialist rule must be brought to an immediate end, so that the peoples of Azania, Zimbabwe, Namibia, Angola, Mozambique and Guinea (Bissau) may achieve their national independence free from any outside interference....

The struggles waged by the peoples of Azania, Zimbabwe, Namibia and the Portuguese colonies are just and just struggles are bound to triumph. We are convinced that, with the support of the African people and the people of the whole world, they will surely win final victory, so long as they unite as one and persevere in protracted struggles.

United Nations

Yen Chia-hua (晏家华), PRC Representative to UN:

We hold that in dealing with debt problems, creditor countries should make full allowance for debtor countries' difficulties. We are firmly opposed to any attempt by creditor countries to press these countries for debt-servicing and put political pressure to bear by taking advantage of debt problems.

We maintain that, when giving economic aid of any kind, an aid-giving country should strictly respect the sovereignty of recipient countries, attach no conditions and ask for no privileges. We support the reasonable demands of developing countries for increasing the volume of foreign aid, softening the terms and conditions of loans and readjusting the debt burden, etc. In connection with the demands of the developing countries many resolutions were adopted at the previous sessions of the United Nations conference on trade and development. It is regrettable that these resolutions have not been genuinely implemented by all countries. It is our hope that the present conference will make decisions through full consultations and put them into operation.

Since the founding of the People's Republic of China we have, on the basis of equality and mutual benefit, established and developed relations of economic and technical cooperation with many friendly countries and provided them with assistance within our capabilities. In providing economic and technical aid to other countries, we have been following the eight principles proclaimed long ago by our government. The eight principles are:

1. The Chinese Government always bases itself on the principle of equality and mutual benefit in providing aid to other countries. It never regards such aid as a kind of unilateral aims but as something mutual.

2. In providing aid to other countries, the Chinese Government strictly respects the sovereignty of the recipient countries, and never attaches any conditions or asks for any privileges.

3. The Chinese Government provides economic aid in the form of interest-free or low-interest loans and extends the time limit for the repayment when necessary so as to lighten the burden of the recipient countries as far as possible.

4. In providing aid to other countries, the purpose of the Chinese Government is not to make the recipient countries dependent on China but to help them embark step by step on the road of self-reliance and independent economic development.

5. The Chinese Government tries its best to help the recipient countries build projects which require less investment while yielding quicker results, so that the recipient governments may increase their income and accumulate capital.

6. The Chinese Government provides the best-quality equipment and material of its own manufacture at international market prices. If the equipment and material provided by the Chinese Government are not up to the agreed specifications and quality, the Chinese Government undertakes to replace them.

7. In giving any particular technical assistance, the Chinese Government will see to it that the personnel of the recipient country fully master such technique.

8. The experts dispatched by the Chinese Government to help in construction in the recipient countries will have the same standard of living as the experts of the recipient country. The Chinese experts are not allowed to make any special demands or enjoy any special amenities.

The eight principles fully manifest the basic policies of our government on foreign aid and reflect China's sincere desire to develop economic and technical cooperation with other developing countries. Our words are always followed by our deeds. Take China's loans for external aid, all of them have long since been extended interest-free, and we have never pressed the recipient countries for debt-servicing.

However, as China's economy is still comparatively backward, the material aid we have provided is very limited. We are ready to make continuous efforts in the hope that we can gradually change this situation and make a greater contribution.

Lin P'ing (林平), Deputy Head of PRC Delegation of 3rd UNCTAD:

China has always been in favor of disarmament. But in our opinion, it would not do to put the blame for the arms race on all countries, and it would not be correct indiscriminately to demand disarmament by all countries alike....

As is known to all, China's nuclear weapons are still in the experimental stage. China develops nuclear weapons solely for the purpose of defense and for breaking the nuclear monopoly and ultimately eliminating nuclear weapons and nuclear war. The Chinese government has consistently stood for the complete prohibition and thorough destruction of nuclear weapons and proposed to convene a summit conference of all countries of the world to discuss this question and, as the first step, to reach an agreement on the non-use of nuclear weapons. The Chinese government has on many occasions declared that at no time and under no circumstances will China be the first to use nuclear weapons. We always mean what we say.

...We would like to avail ourselves of this opportunity to reaffirm that together with the people of various countries, the Chinese people, as always, continue to make concerted efforts, persist in struggle and strive for the attainment of the lofty goal of complete prohibition and thorough destruction of nuclear weapons throughout the world.

Wang Jun-sheng (王润生), PRC Representative to UN:

In China, narcotic drugs are under strict state control and can only be used for the legitimate purpose of medical treatment and scientific research. By implementing the policy of combining strengthened leadership and the mobilization of the masses and combining government decrees and wide-spread propaganda and education, we have within a short period eradicated the serious poisonous effects of opium-smoking throughout the country brought exclusively by imperialism over the past century and more.

This fully demonstrates the firm determination and explicit policy of the Chinese Government and people and also shows the superiority of the socialist system in China in solving problems in this field.

The Chinese people have deeply realized from their own experience that the harm of opium and other narcotic drugs is inseparable from imperialist aggression and intervention. In our view, it is mainly up to the various countries themselves to take firm and effective measures in light of their specific conditions in order to solve the problem of narcotic drugs' harm to the health of their people. As for the developing countries, the only effective solution of the problem of narcotic harm lies in the elimination of imperialist oppression and intervention and the achievement of complete national independence.

We have consistently held that narcotic drugs must be put under strict control and that the illicit growing, manufacture, sale and use of such drugs must be prohibited, that there must be an explicit stipulation that narcotic drugs should only be properly used in medical treatment and

scientific research and that such a stipulation must be firmly put into effect. We shall, as always, firmly maintain the control of narcotic drugs.

We have noted with concern the gravity of narcotic problems in some countries. Drug abuse has become particularly serious in certain countries. In our view, while serious consideration should be given to the attainment of certain feasible international agreement and the exertion of joint efforts on the control of narcotic drugs on the basis of respecting the sovereignty of various countries, the main thing is for the various governments to strengthen the control of narcotic drugs in their respective countries by taking strict and effective measures and at the same time carry out extensive propaganda and education and rely on the assistance and efforts of the masses of the people; only thus can truly effective results be attained.

Huang Hua (黄华), PRC Permanent Representative to UN:

It should be pointed out in particular that in their agreement concerning the Ryukyu Islands and the Daito Islands signed on June 17, 1971, the US and Japanese governments openly included China's territory the Tiaoyu and other islands in the "reversion zone," which is a serious violation of the territory and sovereignty of the People's Republic of China. The Tiaoyu and other islands have been Chinese territory since ancient times. It is entirely illegal and null and void for the US and Japanese governments to make an illicit transfer between themselves of China's territory. The Chinese government and people will never accept it.

*

T'ang K'e (唐克), Chairman of PRC Delegation to UNCHE:

...In our opinion, the increasingly serious pollution and damage of the human environment in certain regions which has become an outstanding issue is mainly the result of the development of capitalism into imperialism and particularly the policies of plunder, aggression and war frenziedly pursued by the superpowers.

...We actively support the people throughout the world in their just struggle against the policies of plunder, aggression and war of the superpowers and in their just struggle against pollution.

...Our government is now beginning to work in a planned way to prevent and eliminate industrial pollution of the environment by waste gas, liquid and residue... .

...Our government has always advocated family planning, and the publicity, education and other measures adopted over the years have begun to produce some effects. It is wholly groundless to think that population growth in itself will bring about pollution and damage of the environment and give rise to poverty and backwardness.

Our position on the question of the conservation and improvement of the human environment is as follows: We support the developing countries in building their national economies on the principle of independence, exploiting their natural resources in accordance with their own needs and gradually improving the well-being of their people.... We are firmly opposed to the imperialist policies of plunder, aggression and war. We are firmly opposed to the superpowers subjecting other countries to their control and plunder on the pretext of improving the human environment....

At present, there are some countries which are worried by nuclear pollution.... It is regrettable that there are now certain people who ignore the fact that the superpowers have manufactured and stockpiled large quantities of nuclear weapons and threaten the small and medium countries.... On the contrary, they pretend to be impartial and oppose all nuclear tests without making any distinction. This is what the Chinese delegation cannot accept.

("Chairman of Chinese Delegation Speaks at UNCHE," NCNA-English, Stockholm, June 10, 1972--SCMP 72-25 [5159]/160-166)

*

Ch'en Hai-feng (陳海峰), PRC Representative to UNCHE:

At present, there are some countries which are worried by nuclear pollution. Such sentiments are understandable. But we hold that the fundamental cause of the threat to the existence of mankind and the human environment by nuclear war should be eliminated. It is regrettable that certain people ignore the fact that the superpowers have manufactured and stockpiled large quantities of nuclear weapons to threaten the small and medium countries, and that the US government is conducting a barbarous war in Vietnam, Laos and Camondia, massacring the people and poisoning the environment. They pretend to be impartial and oppose all nuclear tests indiscriminately. This is what the Chinese delegation cannot accept.

We are willing to work together with all justice-upholding countries and peace-loving people of the world for the complete, total and thorough destruction of nuclear weapons.

("Chinese Representative to UNCHE Reiterates China's Stand on Nuclear Tests," NCNA-English, Stockholm, June 14, 1972--SCMP 72-26 [5162]/73-74)

*

Spokesman for PRC Delegation to UNCHE:

Ten main principles should be considered in revising the draft declaration:

1. Relationship between economic development and environment conservation.

2. Relationship between population growth and environment conservation.

3. War and environment protection.

4. The social cause of environment pollution.

5. The protection of natural resources.

6. Fight against pollution.

7. Compensation for international pollution.

8. International exchanges in scientific and technical knowledge on environment conservation.

9. International environment fund--its establishment and use.

10. International cooperation in the conservation of the human environment.

Widespread international cooperation, including regional cooperation, in the improvement of environment should be advocated, with the respect of the sovereignty of all countries as a prerequisite. All forms of cooperation and all actions in this field should be done in the spirit of full consultation among nations, big or small, on an equal footing. No country should be allowed to encroach on the sovereignty of another country, interfere in its internal affairs and undermine its interests under the pretext of protecting the environment.

("Spokesman for Chinese Delegation to UNCHE Elaborates Stand on Draft Environment Declaration," NCNA-English, Stockholm, June 15, 1972--SCMP 72-26 [5163]/113-114)

*

T'ang K'e:

The principled stand of the delegation of the People's Republic of China on vital issues in the declaration on the human environment has always been consistent and clear. At present there are still a number of points of view in the declaration to which we cannot agree. For instance, the declaration does not mention clearly that the major social root cause of environmental pollution is the policies of plunder, aggression and war pursued

by imperialism, colonialism and neo-colonialism, and in particular the superpowers. The declaration does not denounce the imperialists' war of aggression and their crimes of massacring innocent people and destroying human environment. Particularly on the question of nuclear weapons, the Chinese delegation reaffirmed the consistent stand of the Chinese Government and submitted the proposal on the complete prohibition and total destruction of nuclear weapons so as to fundamentally eliminate nuclear threats and nuclear pollution. This is in accord with the interests of the peoples of the world. But owing to the stubborn opposition and obstruction on the part of the superpowers and their extremely few followers, this proposal of ours was not written into the declaration, and the views formulated in the present declaration are unacceptable to our delegation....

We reaffirm that the Chinese government and people strongly denounce imperialist policies of plunder, aggression and war which bring about the serious destruction of the human environment; strongly denounce the aggression against Vietnam and Indochina, the use of chemical weapons, the killing of the peoples of Indochina, and the destroying of the human environment perpetrated by US imperialism....

We resolutely support the just demand of the developing countries to safeguard their national independence, develop their national economy and to fundamentally improve their environment. We support the just struggle of the peoples against pollution. China will endeavor to work together with all the countries and peoples that love peace and uphold justice, and contribute to the protection and improvement of the human environment.

Huang Hua:

The Chinese delegation maintains that the Security Council must stand for justice and uphold principles of the United Nations Charter and severely condemn Israeli Zionism for its crime of committing armed aggression against Lebanon in violation of the UN Charter and in trampling upon the Security Council resolution; it must firmly support the Lebanese, Palestinian and other Arab peoples in their just struggle against aggression; and demand that the Israeli authorities immediately stop its aggression, return the abducted Syrian and Lebanese personnel, compensate for all the losses caused by Israeli aggression and guarantee against the recurrence of similar incidents in the future.

Statement of PRC Ministry of Foreign Affairs:

The US government must immediately stop its acts of provocation of attacking Chinese merchant ships and prevent the recurrent of similar incidents. Otherwise, it must bear full responsibility for all the grave consequences arising therefrom. The Chinese government reserves the [illegible] right to demand compensation for the losses.

Statement of PRC Government:

On May 8, 1972 US President Nixon Brazenly ordered the mining of the ports of the Democratic Republic of Vietnam, the cutting off of the land and water communications of North Vietnam and the intensification of air and naval strikes. This is a new grave step taken by the United States in escalating its war of aggression against Vietnam.

This act of war escalation by US imperialism seriously encroaches upon the territory and sovereignty of the Democratic Republic of Vietnam, grossly violates the freedom of international navigation and trade and wantonly tramples upon the Charter of the United Nations and international public law. It is a provocation not only against the Vietnamese people, but also against the people of the whole world. The Chinese government and people express their utmost indignation at and strongly condemn it.

Vietnam

Statement of PRC Government:

On May 8, 1972 US President Nixon brazenly ordered the mining of the ports of the Democratic Republic of Vietnam, the cutting off of the land and water communications of North Vietnam and the intensification of air and naval strikes. This is a new grave step taken by the United States in escalating its war of aggression against Vietnam.

This act of war escalation by US imperialism seriously encroaches upon the territory and sovereignty of the Democratic Republic of Vietnam, grossly violates the freedom of international navigation and trade and wantonly tramples upon the Charter of the United Nations and international public law. It is a provocation not only against the Vietnamese people, but also against the people of the whole world. The Chinese government and people express their utmost indignation at and strongly condemn it....

The Chinese government and people resolutely support the solemn and just stand taken by the government of the Democratic Republic of Vietnam in its statement of May 10, 1972. The Chinese government reaffirms that "the 700 million Chinese people provide a powerful backing for the Vietnamese people; the vast expanse of China's territory is their reliable rear area." No matter what happens, this stand of ours will remain firm and unshakable. So long as US imperialism does not stop its war of aggression against Vietnam, and no matter what forms the war may assume, whether it is fought by the United States itself or by using its puppets and whether fought by ground forces or air and naval forces, we will resolutely support and assist the Vietnamese people in their war of resistance to the end till final victory.

Tung Pi-wu (董必武), Acting Chairman of PRC, Chou En-lai, Premier:

The peoples of China and Vietnam are close brothers and comrades-in-arms. It is the bounden internationalist duty of the Chinese people to support and assist the Vietnamese people and all the Indochinese peoples in their war against US aggression and for national salvation. So long as US imperialism does not stop its war of aggression against Vietnam and the whole Indochina, and no matter what forms the war may assume, the Chinese people will, as always resolutely support and assist the Vietnamese people and all the Indochinese peoples in carrying their war of resistance to the end, until complete victory is won.

*

Wang Kuo-ch'uan (王国权), President of Chinese People's Association for Friendship with Foreign Countries:

We Chinese people have always regarded the struggle of the Vietnamese people as our own struggle and their victories as our own victories. Their heroic struggle is a powerful support for China's socialist revolution and construction. It is our bounden internationalist duty to support the Vietnamese people in their war against US aggression and for national salvation. The Chinese people are determined to follow their great leader Chairman Mao's teaching, "The 700 million Chinese people provide a powerful backing for the Vietnamese people; the vast expanse of China's territory is their reliable rear area," firmly stand by the Vietnamese and other Indochinese peoples and give them all-out support until complete victory is won in the war against US aggression and for national salvation.

Jen-min Jih-pao Editorial:

...US imperialism must stop immediately its aggression on and intervention in Vietnam, withdraw the US aggressor troops and the accomplice troops unconditionally and totally, put an end to the war "Vietnamization" program, end its support to the Nguyen Van Thieu puppet clique, and give serious consideration and positive response to the 7-point peace proposal of the Provisional Revolutionary Government of the Republic of South Vietnam and the elaboration on its two key points. US imperialism will never succeed in its attempt to force the Vietnamese people on their knees.

The Chinese and Vietnamese people are close comrades-in-arms and brothers coming together through thick and thin. Their friendship and unity have been cemented in the protracted struggle against the common enemy and are therefore indestructible. "The 700 million Chinese people provide a powerful backing for the Vietnamese people; the vast expanse of China's territory is their reliable rear area." Firm in following this teaching of Chairman Mao's, the Chinese people have always regarded it as their bounden internationalist duty to support in full strength the Vietnamese people's war against US aggression and for national salvation. We are deeply convinced that so long as they unite closely and persist in struggle, the Vietnamese people and the people of Laos and Cambodia will surely win complete victory in their war against US aggression and for national salvation.

Yeh Chien-ying (叶剑英), Vice Chairman of Military Commission:

The Provisional Revolutionary Government of the Republic of South Vietnam is the truly lawful government representing the interests of the South Vietnamese people....

The victorious battles of the South Vietnamese and forces and people have exploded the American hoax that Vietnamization is winning and vividly demonstrated to the whole world that even fully US-equipped South Vietnamese puppet troops, plus US air and naval support, are no match for the South Vietnamese people. Like the strategies of "special warfare" and "local war" of the past, the US "Vietnamization" program will surely go completely bankrupt.

...No matter what military adventures US imperialism may undertake, it cannot save itself from its doomed defeat, but will only meet with still stronger resistance from the Vietnamese and the other Indochinese peoples and end up even more dismally. We are firmly convinced: Victory will surely belong to the heroic Vietnamese people! Victory will surely belong to the heroic Indochinese peoples!

The war against US aggression and for national salvation waged by the Vietnamese and the other Indochinese peoples is an important component part of the anti-imperialist revolutionary struggle of the people of the whole world. By your victories, you have greatly inspired and supported all the oppressed nations and peoples in their struggle for liberation, and set a brilliant example for and made valuable contributions to the anti-imperialist revolutionary cause of the people of the whole world. All revolutionary people are on your side and support your struggle wholeheartedly. Following Chairman Mao's teachings, the Chinese people are determined to do their utmost in giving all-out support and assistance to the Vietnamese people and all the Indochinese peoples in carrying their war against US aggression and for national salvation to the end. This stand of ours is unswerving. No matter what happens, the Chinese people will always unite together, fight together and win victory together with the peoples of Vietnam, Laos and Cambodia.

Statement of PRC Ministry of Foreign Affairs:

For over a month, US imperialism, in defiance of the strong condemnation and opposition of the people throughout the world, has continued to escalate its war against the Democratic Republic of Vietnam. It not only has mined and blockaded the ports of Northern Vietnam and daily sent out large numbers of airplanes and warships to make frantic raids on many cities, villages and coastal inhabitation centers, but has steadily expanded the

sphere of bombing up to areas close to the Sino-Vietnamese borders, threatening the security of China. These frenzied acts of aggression on the part of US imperialism are new war crimes committed against the Vietnamese people, and at the same time grave provocations against the Chinese people.

The Chinese government and people indignantly condemn US imperialism for its new war escalation. China and Vietnam are neighbors closely related like the lips and the teeth; the Chinese and Vietnamese peoples are comrades and brothers sharing weal and woe; and it is the unshirkable internationalist duty of the Chinese people to support and assist the Vietnamese people in their war against US aggression and for national salvation. No matter what circumstances may yet arise in this war, we will resolutely support the Vietnamese and other Indochinese peoples in carrying their war of resistance to the end, till complete victory is won.

US imperialism should know that the heroic peoples of Vietnam and the other Indochinese countries are by no means alone in their struggle.

("Statement of Ministry of Foreign Affairs of People's Republic of China," NCNA-English, Peking, June 12, 1972--SCMP 72-25 [5160]/198-199)

*

Jen-min Jih-pao Commentator:

Closely related like the lips to the teeth, the Chinese and Vietnamese people are brothers and comrades-in-arms who share weal and woe. No matter how desperately US imperialism escalates its war, the Chinese people will, as always, resolutely support the Vietnamese and other Indochinese peoples' war against US aggression and for national salvation. The frenzied expansion by US imperialism of its aggressive war can in no way save itself from complete failure in Vietnam or the whole of Indochina, nor can it shake the definitive conclusion that the Vietnamese people will win.

General

Jen-min Jih-pao Editorial:

The government of the People's Republic of China is the sole legal government of China. Taiwan is an inalienable part of the sacred territory of the People's Republic of China. We are firmly opposed to any plot to create "one China, one Taiwan," "one China, Two governments," "two Chinas" and "an independent Taiwan" and the advocating of the fallacy that "the status of Taiwan remains to be determined." The Chinese people are determined to liberate Taiwan and no force on earth can stop us from doing so.

("Welcome the Establishment of Diplomatic Relations between the People's Republic of China and Greece," NCNA-English, Peking, June 7, 1972--SCMP 72-24 [5156]/31-32)

*

Jen-min Jih-pao Editorial:

Taiwan is a province of China and the 14 million people living in Taiwan are the flesh-and-blood compatriots of the Chinese people. The liberation of Taiwan is China's internal Affairs in which no other country has the right to interfere. All US armed forces and military installations should be withdrawn from Taiwan. The Chinese government firmly opposes any activities which aim at creating "one China, one Taiwan," "one China, two governments," that "the status of Taiwan remains to be determined." The Chinese people are determined to liberate Taiwan.
